## International Conference on Innovations in Engineering Education 2021

# ICIEE2021

Engineering Educators: Active Drivers of Innovation

November 10-11, 2021

The ICIEE 2021 is an opportunity for academicians, researchers, and educators to convene and spark intellectual discussions, best practices, and experiences in engineering education that will benefit the academe, the industry, communities, the government, and other key sectors involved in nation- and world-building. This virtual conference is organized and facilitated by Batangas State University's Center for Innovation in Engineering Education (CIEE) in celebration of 50 years of quality education in engineering.

Featured are plenary talks, panel discussions, and master classes in the following thematic areas:

### DAY 1

- Innovating Today towards the Engineering Mindset of the Future
- The Continuing Role of Engineering Education in the Attainment of the SDGs: UNESCO Engineering Report 2021
- Quality Assurance in Engineering Education
- Inclusion and Diversity in Engineering Education

### DAY 2

- Matching Future-Fit Engineering Education with the CDIO Framework
- Teaching and Learning in the New Normal: Best Practices in Southeast Asia
- Advances in Integrated Learning Experiences Using Core Principles of Learning
- Assessment Methods in Education: "How Do I Know What They Know?"
- Innovation of Engineering Education for the Future Universities
- Redesigning Learning for Effective Engagement in the Virtual Learning Environment

**Registration Fee:** PHP 1,000.00 (20 USD)

**Registration Form:**
